YTI Career Institute to Initiate New Cybersecurity Program
York Campus to Begin Program March 20, 2023

York, PA— YTI Career Institute’s York campus is offering qualified students the opportunity to join the new Cybersecurity Program set to launch on March 20, 2023. This *100% Online* Program will help students with **18 academic credits in Information Technology** or **one year of professional experience in Information Technology** to gain an Associate Degree in Specialized Technology in as few as 20 months with chances at also receiving CompTIA Security+ and CompTIA Cybersecurity Analyst+ Certifications.

The Cybersecurity program at YTI Career Institute is designed for individuals in the field of Information Technology who desire a more thorough education and professional development in the area of cybersecurity. Graduates of the program are prepared to begin careers in occupations like Cybersecurity Analyst, Information Assurance Specialist, Network Security Engineer, Security Operations Center (SOC) Analyst, Threat Intelligence Analyst. According to the U.S. Bureau of Labor Statistics, employment of information security analysts is projected to grow 35 percent from 2021 to 2031.

Online Instruction must be completed on your own schedule and will require about 25-30 hours per week for educational activities and study. In as few as 20 months, you can get the education and training needed to start a career in Cybersecurity, focusing on safeguarding computer networks and systems from cyberattacks. For more information on what YTI Career Institute has to offer, visit www.yti.edu.

About YTI Career Institute: YTI is a private post-secondary institution of higher education serving south-central Pennsylvania at the York, Lancaster, and Altoona campuses. YTI Career Institute offers career training in the computer, culinary arts, healthcare and trades fields. For more information, visit www.yti.edu.
