Information on the Privacy Act & Use of Your Social Security Number

The Privacy Act of 1974 requires that each federal, state, or local agency that asks you to supply your Social Security number (SSN) or other personal information must provide you with certain information regarding the agency's authority to ask for you to supply the information, the purpose for which the agency is asking for the information, and any effects on you for not providing the information.

Your SSN is needed to identify you, process your application, and keep track of your record. We use your SSN in recording information about your college attendance and ensuring you have received the benefit of this award. We will only share information as permitted by law and for routine use in our day-to-day operations, such as to process your application and communicate with program sponsors. If you do not give us your SSN, you will not receive a program award. Applicants are hereby advised that disclosure of their SSN is a requirement and a condition for participation in the program. PHEAA, without such an identifier, would have difficulty in maintaining proper records.

Section 7(a)(2) of the Privacy Act provides that an agency may continue to require the disclosure of an individual's SSN where the agency required this disclosure under statute or regulations prior to January 1, 1975, in order to verify the identity of the individual. Beginning in 1966 with Form S-1A-66 (First Application), applicants have been required to answer all questions completely or face disqualification for assistance.

All subsequent forms utilized by PHEAA contain the SSN as the identifier of the applicant, including eligibility announcements forwarded to the student and the financial aid officer of the postsecondary institution.
